

FEMALE API COUPLER

Mod. 1521

II 2 G

APPLICATION

Female coupler Mod.1521 is used for the bottom loading of hydrocarbons into tank trucks. This coupler ensures secure connection with an API adapter, as well as high speed loading. It is designed and manufactured according to API RP 1004.

CHARACTERISTICS

Material	Aluminium
Internal parts	Aluminium, steel, stainless steel AISI 304
Wearing parts	Anodized aluminium
Pin material	Brass
Gaskets	Viton
Test pressure	15 bar
Design pressure	10 bar
Working pressure	6 bar
Max.flow rate	150 m ³ /h
Working temperature	-15/+65 °C
Weight:	10,25 kg

DIMENSIONS
